

YSI pH and pH/ORP Probes

Standard Probe — Guarded Glass Bulb

6561 pH Only — Item # 006561
6565 pH/ORP — Item # 006565 

Use with: All 6-Series sondes with a user-replaceable pH port.
Strengths: Provides general monitoring flexibility. Produces very stable readings. Rugged and guarded.

Flat Glass Probe

6561FG pH Only — Item # 605091
6565FG pH/ORP — Item # 605092

Use with: 6600EDS Sonde ONLY.
Strengths: Produces unattended pH readings in high-fouling environments on 6600EDS sondes. Wipeable by 6600EDS sonde brush (Part# — 616630). Glass is well-protected.

Unguarded Glass Bulb Probe

pH/ORP 6566 — Item # 006566

Use with: 6600EDS Sonde ONLY.
Strengths: Produces unattended pH readings in high-fouling environments on 6600EDS sondes. Wipeable by 6600EDS sonde brush (Part# — 616630). Produces very stable readings.

Hemispherical Glass Probe

6579 pH Only — Item # 606579
6569 pH/ORP — Item # 606569 

Use with: 6600V2-4 Sonde with 616630 Wiper/Brush ONLY.
Strengths: Produces unattended pH readings in high-fouling environments on 6600V2-4 sondes. Greater length and hemispherical bulb is wipeable by a 6600V2-4 sonde brush. Hemispherical shape largely protects bulb.

Fast Response Probe

6589 pH Only — Item # 606589 

Use with: All 6-Series sondes with a user-replaceable pH port.
Strengths: Provides rugged general monitoring flexibility. Produces fast, stable readings in LIS Water and other difficult pH measuring environments. New design restores old instrument's pH response time to like new.

Standard 600R/600 QS Probe

6581 pH Only — Item # 006581
6554 pH/ORP — Item # 655481
6580 pH Reference — Item # 006580 (pictured)

Use with: Probes come installed from YSI on 600R and 600QS sondes. Only the 6580 reference is user-replaceable.
