## HOW -

Simply contact YSI Repair ([geldridge@ysi.com](mailto:geldridge@ysi.com) or 937-767-7241 x443). Let us know you are interested in taking advantage of the Memory or Barometer Upgrade offer - reference **UPGRADE2010**.

You will need to provide information on which upgrade you will take advantage of.

Optional Barometer - Temperature-compensated barometer readings are displayed and can be used in DO calibration. Measurements can be logged to memory for tracking changes in barometric pressure.

Memory Options - Standard memory with 150 data sets, or a high-memory option (1.5 MB) with more than 50,000 data sets; both options with time and date stamp
