

## Profiler EXO Adapter (pXa) & SureLink

The link between EXO and your water column data

The Profiler EXO Adapter (pXa) is a compact connector that links EXO Multiparameter Sondes to vertical profiling systems.

Seamlessly connects an EXO Sonde to the Profiler controller for reliable operations

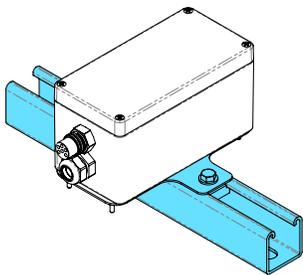

Built-in SOA-DCP adapter reduces the need for additional components

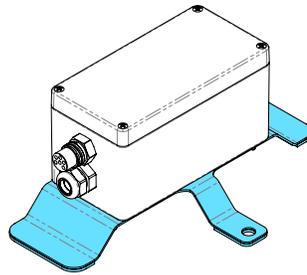

Enables compatibility with SureLink adapters and legacy 6-Series sonde

### Mounting options

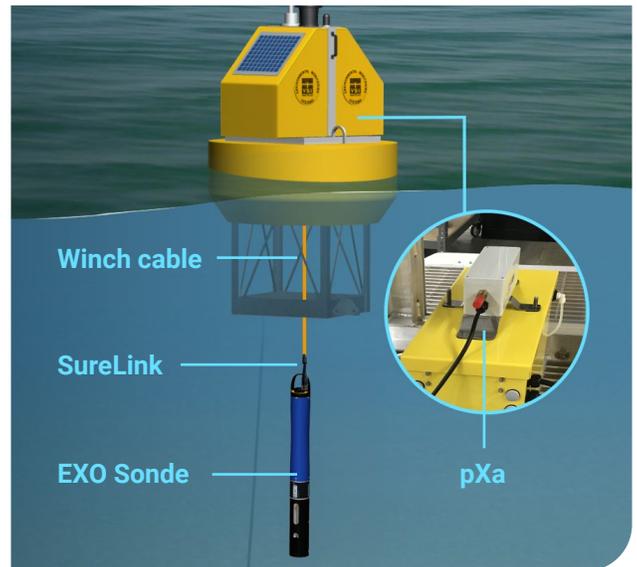

#### Unistrut mount

Fixed profiler solution  
PN: 910062

#### Battery mount

Floating profiler solution  
PN: 910063
