

6-Series Discontinuation & Support Schedule

As the EXO Platform evolves and demand continues to grow, it is finally time to say goodbye to the **6-Series Sondes**. YSI is no longer selling any new 6-Series Sondes; however, we will continue to support the 6-Series product line as much as we can through the end of 2025.

The tables below indicate the following:

- **Discontinued:** the date when you can no longer purchase the instrument
- **Support Ends:** the date when repair parts (RPs), replacement components, accessories, and service will no longer be available
