# How Modern Monitoring Supports the Sustainable Use of Natural Resources

"How Modern Monitoring Supports the Sustainable Use of Natural Resources" explains that **advanced technologies are key to managing natural resources effectively so that they can be used by both current and future generations**. Modern monitoring tools provide the data and insights needed to make informed decisions and address the environmental challenges that come with resource consumption. 

## Breaking down the concept

### Modern monitoring

This refers to the use of cutting-edge technology to collect, track, and analyze environmental data.

## Panel arbitral queda en firme e incrementa demandas mineras contra Panamá

El Ciadi conformó el tribunal que atenderá las demandas presentadas por First Quantum y Korea Mine tras el cierre de la mina en Donoso.

## ACP inicia año fiscal 2026 con proyección de 11,493 tránsitos

La Autoridad del Canal de Panamá proyecta que los tránsitos se reducirán 8.65% con respecto a 2025, cuando se presupuestaron 12,582. El año fiscal arranca el 1 de octubre.

The Panamá Canal and the First Quantum Copper mine are my best customers.

Water is vital to the economy of Panama

Barriles S.A.

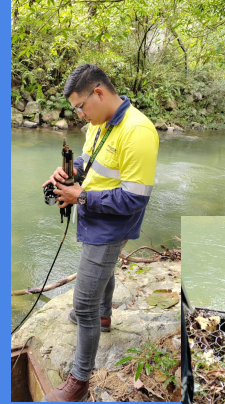

Panamá Canal  
represents  
around 8% of  
Panamá's GDP

First Quantum Copper Mine is now closed and only does monitoring and maintenance. Until two years ago it represented about 5% of Panamá's GDP. In maintenance mode they still have 1700 employees working. They still buy lots of EXO stuff. We and many other business are confident they will be opened soon.

Critical point monitoring at the mine, done at three places.

# Panamá Canal

## Miraflores Locks

The new locks are slowly raising the salinity levels in Gatun Lake. The Miraflores treatment plant has had to move the intake to Gamboa, 20 kms to the north.

Miraflores Water Purification plant.

**Monitored with EXO3**

I **will** sell Pro DSS and CastAway

I **like** selling Flowtracker, RS5 and M9

But...

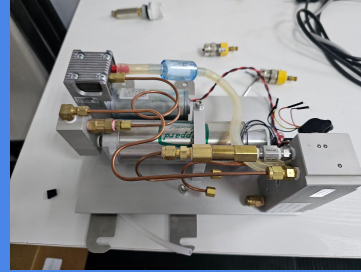

# But I **LOVE** selling EXO

Because there are a world of accessories and replacements to be sold, the need to be calibrated and because they break and need repairs.

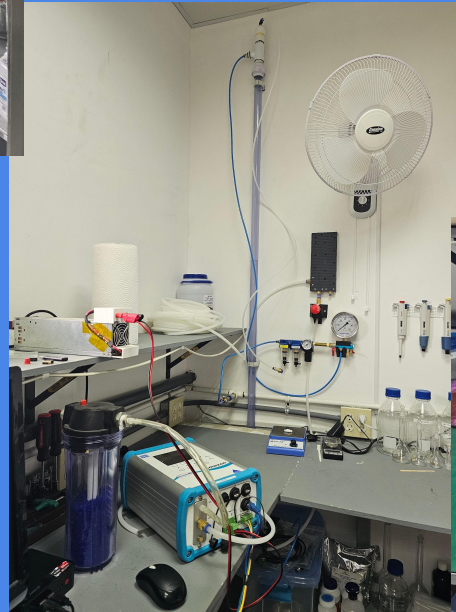

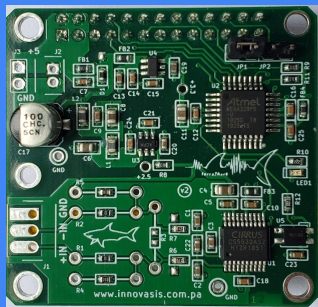

# ***BARRILES***

Repairs and  
calibrates EXO,  
Amazon Bubbler,  
Pro series, but  
really mostly EXO

We make and sell our own stuff!

# Questions

***Barriles S.A.***

# The first sale is the most important sale.

Azuero no tendrá agua apta para el consumo antes de fin de año

Río La Villa is 125 kilometers long and is the source of water for about 400,000 people, so polluted by 42 pig pig farms. So polluted that it could not be treated enough for human consumption.

An emergency 4 million dollars allocated for instrumentation.  
14 - 30 day deliveries.

## Grounding and Bonding
