

SPRING MAINTENANCE SPECIAL

LIMITED TIME ONLY:
ENDS JULY 15, 2020

Routine maintenance can make all the difference in the performance of your equipment.

Maintenance Specials are Available for:

6-Series
Sondes

EXO
Sondes

ProDSS
Meters

Know the Benefits

- > Longer life expectancy for your monitoring equipment
- > Lower overall repair costs over the life of your equipment
- > Less downtime and missed data in the field when you need it most
- > Ensure the highest quality data for another sampling season

Instructions for Sending in Your Instrument

- 1 Download the [YSI Product Return Form](#) and fill out the required fields.
- 2 Specify **SPRING MAINTENANCE** as the reason for return.
- 3 Include form with equipment and ship to our Yellow Springs facility.
- 4 Check the status of your repair at any time on our online [Repair Status Checker](#).

6-Series Maintenance

LIMITED TIME: ENDS JULY 15, 2020

Annual check-up and preventative maintenance optimizes the performance and lifetime of the 6-Series Sonde.

- Equipment cleaning
- Replacement/lubrication of all sonde o-rings, seals, and sealing surfaces
- Circuit board testing and firmware update
- Evaluation of the sonde and sensors
- Calibration of sensors
- Power draw check
- Data logging test
- Pressure test

6-Series Sonde \$250.00

Optical Probe Quad Seal Replacement:

Wiper shaft quad seal replacement is critical to ensure optimum performance of the optical probe.

- Replacement of quad seal retainer and o-ring with fresh grease
- Replacement/lubrication of all other o-ring seals
- Wiper pad replacement
- Wiper shaft rotation check
- Verification that probe meets YSI specifications

Quad Seal Replacement \$120.00 (per optical probe)

Terms

Tune-Up covers labor for 6-Series Sonde evaluation and calibration of installed probes

Replacement parts are not covered by the Tune-Up price, but will be discounted 10%

Repair of damaged parts is not covered, unless a result of defect under warranty

If additional services apply, they will be quoted at time of service

Comprehensive inspection and testing by expert technicians

Bulkhead seal replacement

Verification that sensors meet YSI specifications

EXO Maintenance

LIMITED TIME: ENDS JULY 15, 2020

Annual check-up and preventative maintenance optimizes the performance and lifetime of the EXO Sonde.

- Equipment cleaning
- Replacement/lubrication of all sonde o-rings, seals, and sealing surfaces
- Circuit board testing and firmware update
- Evaluation of the sonde and sensors
- Calibration of sensors with KorEXO Calibration Reports
- Central Wiper seal replacement
- Wiper rotation check
- Power draw check
- Data logging test
- Pressure test

EXO1 Sonde	\$330.00
EXO2 Sonde	\$600.00
EXO3 Sonde	\$465.00

Terms

Tune-Up covers labor for EXO Sonde evaluation and calibration of installed probes

Replacement parts are not covered by the Tune-Up price, but will be discounted 10%

Repair of damaged parts is not covered, unless a result of defect under warranty

If additional services apply, they will be quoted at time of service

Comprehensive inspection and seal restoration by expert technicians

Annual Wiper service is critical to anti-fouling protection

Factory pressure chamber tests leak resistance up to 250m simulated depth

ProDSS Maintenance

LIMITED TIME: ENDS JULY 15, 2020

Annual check-up and preventative maintenance optimizes the performance and lifetime of the ProDSS Meter.

- Equipment cleaning
- Replacement/lubrication of all sonde o-rings, seals, and sealing surfaces
- Firmware updates to handheld and sensors
- Evaluation of the complete system - handheld + cable + sensors
- Calibration of sensors with KorDSS Calibration Reports
- Sensor power draw check

• ProDSS System \$440.00

Terms

Tune-Up covers labor for a single ProDSS handheld, 4-port cable, and up to 4 sensors

Replacement parts are not covered by the Tune-Up price, but will be discounted 10%

Repair of damaged parts is not covered, unless a result of defect under warranty

If additional services apply, they will be quoted at time of service

Comprehensive inspection and testing by expert technicians

Cable/probe assembly seal replacement

Verification that sensors meet YSI specifications
